

# COMPANY PROFILE

Industrial, engineering, logistics  
and mining solutions

[www.dwsafrica.com](http://www.dwsafrica.com)

Deep Work Solutions was founded by a multidisciplinary team with deep roots in the DRC's business landscape. Our expertise spans subcontracting, logistics, trade, finance, and mining, with proven experience working alongside UN agencies and managing complex operations across the country. With strengths in project finance, workforce solutions, and import-export logistics, we have built a reputation for reliability and strategic insight.

To extend our capabilities, we partner with global firms such as Questworks, a leader in design-build, contracting, energy, and engineering. This blend of local knowledge, sectoral expertise, and international collaboration forms the foundation of our work — delivering impact, efficiency, and integrity across the Congolese mining sector and beyond.

# Our Journey of **Expertise** and **Growth**

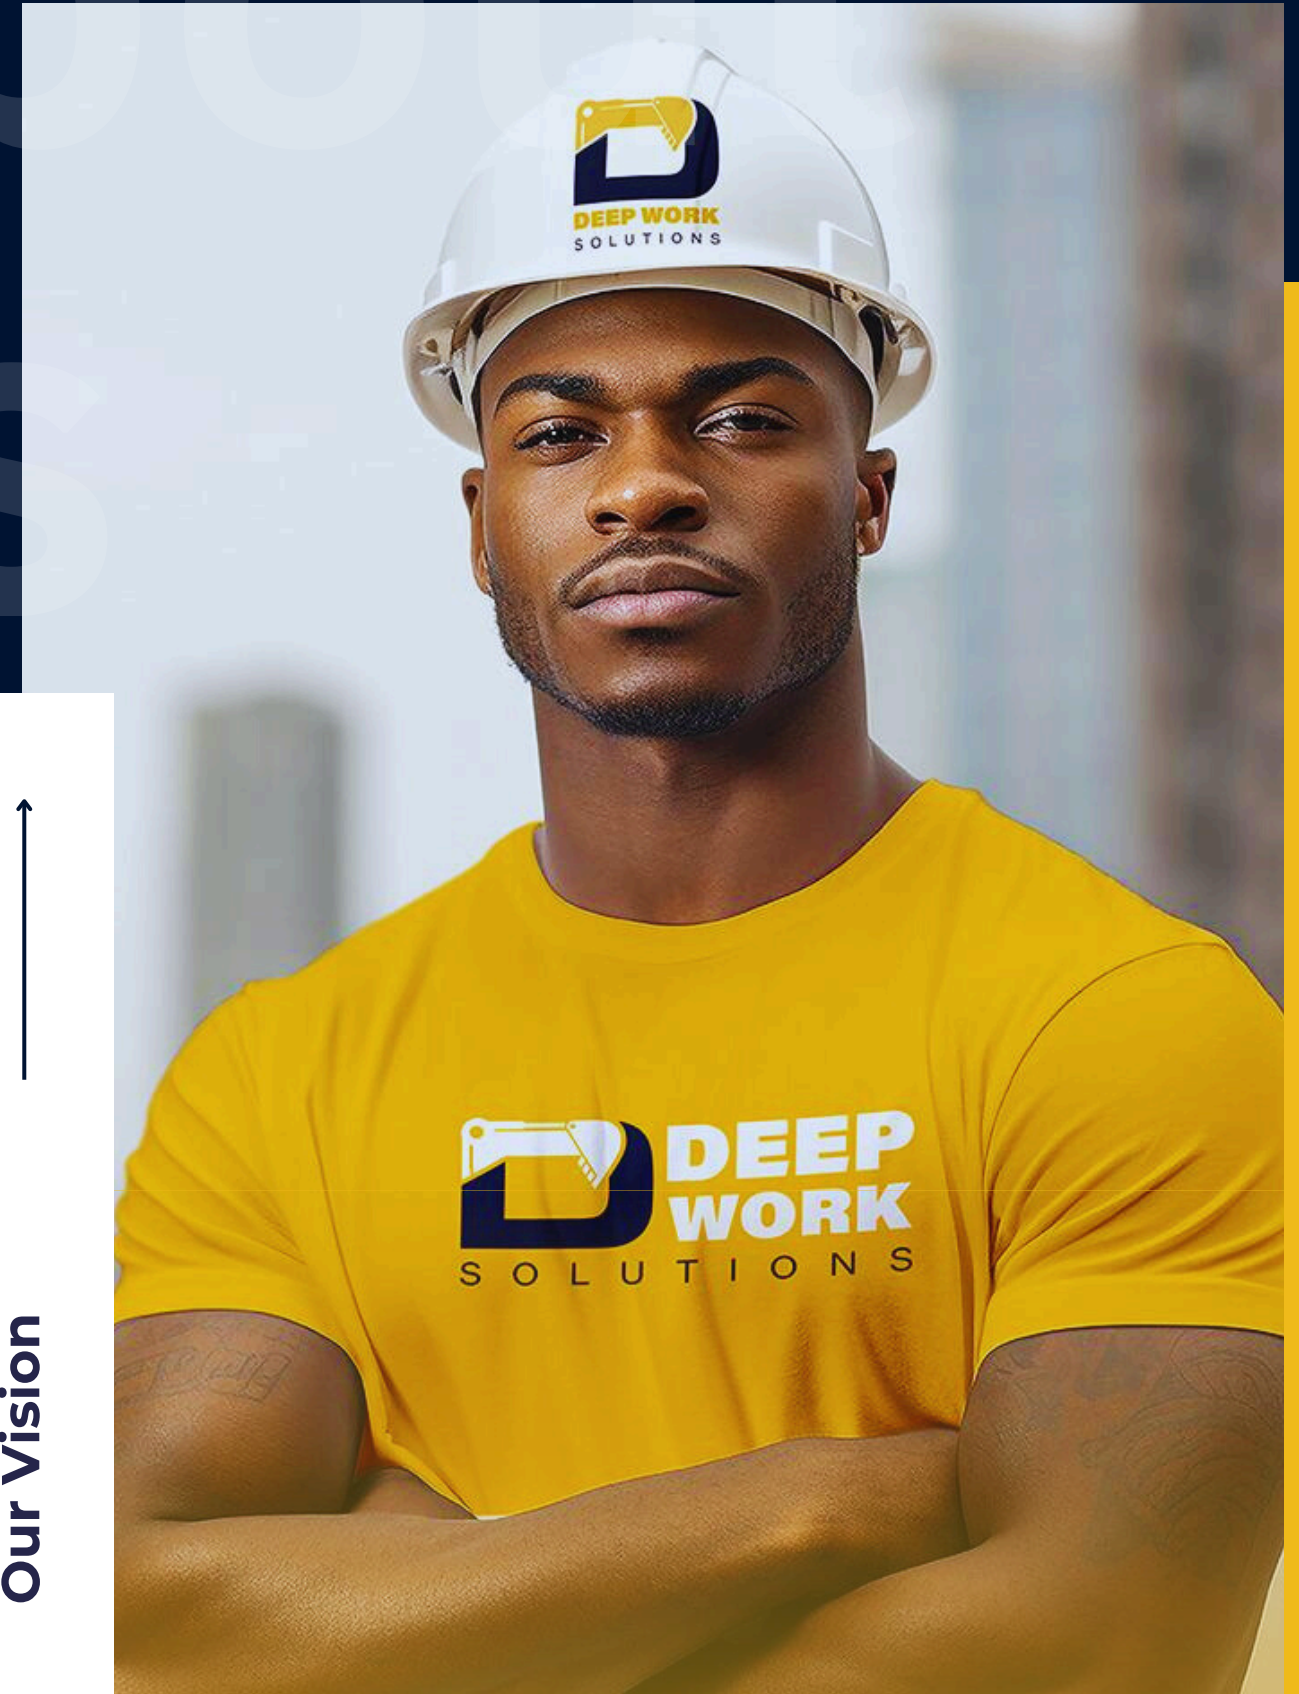

# Our Vision

To become the most reliable and high-performing subcontractor in the Congolese mining sector — recognized for the quality of our services, operational efficiency, and uncompromising ethics — while actively contributing to the sustainable development of the industry and the country.

Our Vision

**About Us** →

# Quality-driven supply, logistics, and engineering services

Deep Work Solutions is your trusted partner for industrial supply, logistics, engineering, and mining support in the Democratic Republic of Congo. We specialize in the procurement of mining machinery, spare parts, and critical inputs — ensuring quality and on-time delivery every time.

**Our Partner**

**QUESTWORKS**

Our principal partner, **Questworks**, brings world-class expertise in design-build, general contracting, energy, architecture, engineering, and construction management.

## Core Commitments

### Deliver Excellence in Technical and Logistical Services

Provide high-quality industrial supply, transportation, and infrastructure services that meet the most demanding standards of the mining sector.

### Invest in Local Talent and Operational Innovation

Promote local capacity building, encourage knowledge transfer, and integrate modern technologies to enhance performance and create lasting value.

### Support Sustainable Mining Development

Offer solutions that comply with environmental standards and contribute to the safety, well-being of local communities, and broader social responsibility.

### Deliver Technical and Logistical Excellence

Provide high-quality industrial supply, transportation, and infrastructure services that meet the most demanding standards of the mining sector.

# Protecting People, Preserving Environments

At Deep Work Solutions, the health and safety of our people, partners, and communities is a top priority. We believe that no business goal is more important than protecting lives and ensuring safe operations across every project.

## Our Commitment

- ✓ We enforce strict safety protocols that meet both local regulations and international standards.
- ✓ Every employee and subcontractor is trained in risk prevention, emergency response, and safe workplace practices.
- ✓ We adopt a zero-harm philosophy, ensuring operations are carried out responsibly without compromising people or the environment.

# Value Proposition

We combine integrity, operational excellence, and local expertise with global standards to deliver flexible, sustainable solutions for mining and industrial projects in the DRC.

Why Choose Us

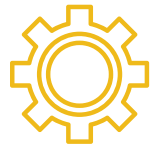

# Our Services

We provide comprehensive industrial and mining solutions encompassing equipment supply, subcontracted services, infrastructure engineering, and specialized logistics. From reliable procurement of machinery and spare parts to the professional execution of mining and construction projects, our operations emphasize precision, quality, and environmental responsibility.

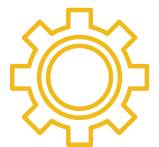

Our Services

### **Industrial Supply & Mining Equipment**

Reliable procurement of machinery, spare parts, and essential inputs (chemical and non-chemical) for mining operations — delivered with quality assurance and punctuality.

### **Specialized Transport & Logistics Solutions**

We provide end-to-end logistics services for minerals, heavy equipment, and industrial goods via road, lake, river, and air — carefully tailored to the unique operating conditions of the DRC.

### **Construction, Installation & Infrastructure Engineering**

Execution of high-standard infrastructure works including solar installations, energy storage systems, water wells, on-site housing, and factory construction — with strong focus on quality, compliance, and environmental responsibility.

### **Subcontracted Mining Services**

Professional delivery of technical and logistical services on behalf of principal companies — carried out with precision, discipline, and integrity.

# Our Team

**Cartel B. Matabaro**  
CEO

**Eric B. Musanganya**  
CFO

**Elie M. Musanganya**  
COO

**Dr. Raúl H. Figueroa**  
Lead Engineer

**Mr. Amarjit S. Viridi**  
Lead Engineer

**Mr. Moses M. Ndung'u**  
Lead Engineer

**Mr. Philip M. Kamau**  
Lead Engineer

# Our Team

**Monique Sankay**  
Graduate Engineer

**Elie Mukongo**  
Graduate Engineer

## Global standards with local expertise

From engineers and project managers to logistics experts and finance professionals, our team combines technical skill with strategic insight.

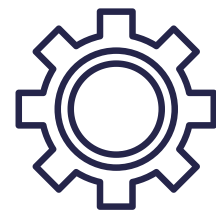

# Why Choose Us

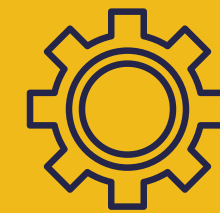

## Uncompromising Integrity

A trusted partner — transparent in contracts, fair in pricing, and rigorous in execution.

## Operational Excellence

Consistent, efficient, and reliable service — with no shortcuts and no compromises on safety or industry standards.

## Local Expertise

Deep understanding of the Congolese context, combined with international best practices.

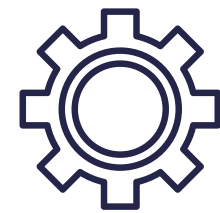

# Why Choose Us

## Flexible & Scalable Solutions

Custom services designed for both one-off projects and long-term partnerships.

## Commitment to Sustainability

A responsible approach — serving the environment, supporting communities, and securing the future.
